## Daffodil Institute Of Engineering And Technology (DIET)

### About DIET

DIET is the Best private polytechnic institute in Dhaka, Dhanmondi, Bangladesh, for building a wonderful, skilled Engineering career in different sectors. The Institute, situated in a scenic area and free from the chaos of Dhanmondi, began its journey in mid-2006. The Daffodil Institute of Engineering & Technology is a well-known institution for science, engineering, and art studies, as well as professional and leadership development training programs.

### Our Department

## We Have 360° Support Services

## Our Facilities

## Key Activities of 2025

### ❖ Vision 2025: Commitment to Growth and Excellence

On the first day of 2025, "Vision 2025: Commitment to Growth and Excellence" was held, reflecting on past achievements and setting new goals. Daffodil Family's CEO Dr. Mohammad Nuruzzaman, DIET Principal KM Hasan Ripon, along with faculty and staff, shared inspiring guidance for the year ahead. [Read More](#)

### 15th National Nature Summit 2025 ❖

Electrical Department students of DIET, MD Abdulla Al Fahad Biswas and Sajjad Ali, participated in the 15th National Nature Summit 2025 with their team Robohub.

[Read More](#)

### ❖ Daffodil Family Day 2025

The Daffodil Smart City came alive with joy, laughter, and heartfelt togetherness as we celebrated Daffodil Family Day 2025. It was a day filled with vibrant moments where colleagues, families, and friends gathered to strengthen bonds, share happiness, and create cherished memories. This celebration truly reflected the spirit of unity and belonging within the Daffodil Family. [Read More](#)

## ❖ Annual Picnic 2025

The much-awaited Annual Picnic 2025 was successfully held with vibrant participation and festive arrangements by the students. The day was filled with laughter, fun activities, and unforgettable memories, making it a truly joyous celebration for all. [Read More](#)

## University Level Project Innovation ❖ at Science Carnival 4.0 2025

Team Absolute Zero from the Electrical Department has proudly secured 1st Runners-Up in the University Level Project Innovation at Science Carnival 4.0, Chittagong University on February 13. [Read More](#)

## ❖ Spring Festival & Pitha Festival 1431

With vibrant arrangements led by students, "Spring Festival & Pitha Festival 1431" was joyfully organized at Daffodil Institute of Engineering & Technology. The celebration beautifully blended the colors of spring with traditional flavors, creating a festive and memorable atmosphere on campus. [Read More](#)

## International Mother Language Day 2025 ❖ (Amar Ekushey February)

On the occasion of International Mother Language Day 2025, teachers and students paid deep tribute to the Language Martyrs by placing floral wreaths at the Shaheed Minar. Their supreme sacrifice for our mother tongue will remain forever unforgettable. [Read More](#)

## ❖ International Mother Language Day Observance

Students observed 21st February through a series of meaningful programs. Cultural performances, patriotic songs, and various activities were arranged to honor the Language Martyrs. Their enthusiastic participation reflects that the Bengali language is not just a means of communication—it is our pride and identity. [Read More](#)

## Iftar Mahfil 2025 ❖

With the enthusiastic participation of students, teachers, and staff, Iftar Mahfil 2025 was organized at Daffodil Institute of Engineering & Technology. The program included a discussion on the significance of Ramadan, followed by special prayers seeking blessings and a bright future for the students. [Read More](#)

## ❖ 26th March: Great Independence Day

"Achieving independence is difficult; sustaining it is even harder."

26th March marks an unforgettable chapter in the glorious history of the Bengali nation. On this day, much was sacrificed, yet we gained an independent country—the red and green Bangladesh!

Students of Daffodil Institute of Engineering & Technology solemnly commemorated Independence Day 2025 through discussions, presentations, and patriotic activities, honoring the spirit of freedom and national pride. [Read More](#)

## ❖ Eid Reunion 2025

With the enthusiastic participation of students, teachers, and staff, Eid Reunion 2025 was joyfully organized at Daffodil Institute of Engineering & Technology. The event fostered camaraderie, celebration, and togetherness, creating memorable moments for the entire campus community. [Read More](#)

## Happy New Year 1432 | Pohela Boishakh Celebration ❖

Students of Daffodil Institute of Engineering & Technology welcomed the New Year with vibrant celebrations of Pohela Boishakh, the timeless Bengali tradition. The festivities included joyful processions and traditional Boishakhi fairs, bringing color, culture, and excitement to the campus. [Read More](#)

## ❖ Parents Meeting 2025 at DIET

Ensuring the overall development of students requires the active participation of both parents and the institution. In this context, a Parents Meeting was organized at Daffodil Institute of Engineering & Technology, where teachers and parents engaged in direct discussions about students' academic progress and future plans. [Read More](#)

## ❖ World Physics Day 2025

On the occasion of World Physics Day 2025, Daffodil Institute of Engineering & Technology organized a quiz competition and project presentations with active participation from students. The event was a remarkable blend of knowledge and innovation. Winners were awarded to honor their outstanding achievements. [Read More](#)

## AutoCAD Skills Session at DIET ❖

An AutoCAD Skills Session was held at Daffodil Institute of Engineering & Technology, conducted by Md. Jahid, Jr., Instructor. The workshop covered concepts from basic to advanced levels of AutoCAD. The program inspired students to deepen their knowledge and enthusiasm for learning AutoCAD.

[Read More](#)

## ❖ Mathematics Awareness 2025

Mathematics Awareness Month was celebrated at Daffodil Institute of Engineering & Technology with active participation from students. On this occasion, a mathematics quiz test was organized to enhance students' mathematical skills and encourage greater awareness and interest in the subject. [Read More](#)

## ❖ MoU Signing Between DEN and DEA-BD

To encourage students' life skills, leadership, and personal development, a Memorandum of Understanding (MoU) was signed between Daffodil Education Network (DEN) and The Duke of Edinburgh's Award Foundation Bangladesh (DEA-BD). This collaboration aims to empower students with skills essential for their personal and professional growth.

[Read More](#)

## Civil Engineering Students' Site Visit ❖

Practical, hands-on learning is essential for developing technical skills. Civil Engineering students participated in a site visit to a residential cum commercial building project, where they gained real-world insights into construction methods, design concepts, and safety measures directly from professional engineers.

[Read More](#)

## ❖ Circuit Solved Competition 2025

The Circuit Solved Competition 2025 was held at Daffodil Institute of Engineering & Technology, where students enthusiastically participated and showcased their technical skills, problem-solving abilities, and creativity.

[Read More](#)

## ❖ Ribbon Washing Day

Daffodil Institute introduced a unique initiative — the Ribbon Washing Program — promoting cleanliness and pride in appearance.

Moving away from dull and untidy ribbons, this program encouraged students and teachers to come together in creating a neat and presentable identity.

[Read More](#)

## Industry Visit: BIID Expo & Dialogue 2025 ❖

Students from the Electrical, Mechanical, and Automobile Engineering departments attended BIID Expo & Dialogue 2025, gaining hands-on knowledge of energy-efficient hybrid power, modern construction technologies, and innovative engineering solutions. They interacted with industry experts from leading companies and networked with professionals from over 12 countries, enhancing their global perspective and career readiness. [Read More](#)

## ❖ Award Leaders' Training at DIET

Teachers of Daffodil Institute of Engineering & Technology participated in The Duke of Edinburgh's International Award program's "Award Leaders' Training". This training enhances teachers' skills to guide students in building confidence, leadership, and active participation in voluntary and skill-development activities. DIET is always ready to nurture the next generation of achievers! [Read More](#)

## ❖ First-Year Electrical Poster Presentation Success

First-year students of Daffodil Institute of Engineering & Technology successfully presented their Electrical-themed poster presentations today. The enthusiasm, creativity, and dedication of these future engineers are truly commendable, reflecting their passion for learning and innovation.

[Read More](#)

## Connecting Learning with History: Study Tour ❖

A one-day Study Tour was organized for first-semester students of Daffodil Institute of Engineering & Technology to the Bangladesh National Museum. Students had the opportunity to gain hands-on knowledge about the country's history, culture, and ancient artifacts. This enriching experience will enhance their learning and critical thinking, proving that the journey of education begins with real-world experiences. [Read More](#)

## ❖ AgentX Championship MoU Signed for Student Skill Development

Netcom Learning Bangladesh and Daffodil Institute of Engineering & Technology signed a Memorandum of Understanding for the AgentX Championship, aimed at enhancing students' technical skills, knowledge of Agentic AI, and future leadership. The agreement was signed by Abdur Rahman Mamun (Netcom Learning) and Mr. Rathindranath Das (DIET), with senior officials in attendance. This initiative will empower students to become skilled, innovative, and career-ready professionals. [Read More](#)

## ❖ Proud Achievement at 46th National Science & Technology Week 2025

At the 46th National Science & Technology Week 2025 (Bhola District level), Md. Tahasin, a first-semester Mechanical Engineering student of Daffodil Institute of Engineering & Technology, representing Monpura Science & Innovation Club, secured 1st place.

[Read More](#)

## AgentX: An AI Prompting Competition Seminar ❖

To enhance students' AI skills, NetCom Learning organized the "AgentX - An AI Prompting Competition" seminar at Daffodil Institute of Engineering & Technology. The session was conducted by Abdur Rahman Mamun, Head of Partnership, and Mashahed Hassan Simanta, Mentor at NetCom Learning Bangladesh. The seminar helped students improve their AI prompting skills and learn practical applications of artificial intelligence in real-world scenarios. [Read More](#)

## ❖ Industrial Visit for Skill Development

Students from the Mechanical and Automobile Departments participated in an industrial visit to BITAC. The visit provided hands-on exposure to modern machinery, production processes, and real workshop environments, enhancing students' practical skills and career readiness. [Read More](#)

## ❖ University-Level Achievement.

At the 1st S.N. Bose National Science Festival 2025, organized by Dhaka University Science Adda, Md. Tahasin, a 1st-semester student of the Mechanical Department, secured 2nd Runner-Up.

His innovative thinking and technical skills earned this proud recognition. [Read More](#)

## Basic Electricity Project Competition Completed ❖

1st-semester students showcased impressive self-made projects, reflecting the practical application of their basic electrical knowledge. Learning beyond textbooks—skills proven through hands-on work!

[Read More](#)

## ❖ Free Masterclasses for New SSC Graduates

Daffodil Institute of Engineering & Technology (DIET) is excited to announce free masterclasses for students who have recently passed SSC 2025. These sessions will focus on AI Tools, Digital Marketing, Machine Learning, and Robotics, empowering students with skills essential for the future. [Read More](#)

## New Horizons for DIET Diploma Engineering Students ❖

DIET has partnered with USET through an MoU, enabling diploma engineering students to pursue specialized B.Sc. in Engineering programs. This initiative opens new pathways for higher education and career development, combining practical, skill-based learning with global-standard opportunities.

[Read More](#)

## ❖ Seminar on Job Opportunities for Diploma Engineers in Japan

Today, Mr. Toru Okazaki, Managing Director of Daffodil Japan IT, attended a special seminar at Daffodil Institute of Engineering & Technology (DIET). The seminar focused on real job opportunities in Japan for diploma engineers and guidance for building an international career. Through the joint initiative of DIET and DJIT, efforts are underway to ensure student placement in the Japanese job market. [Read More](#)

## JUMP: Career Acceleration Program ❖

Held at 71 Auditorium, Daffodil Plaza, the event saw enthusiastic participation from DIET students. The program featured hands-on training, interactive sessions, real-world experience, and industry connections, providing a strong boost to students' career development. Special thanks to Bangladesh Skill Development Institute, Daffodil Institute of IT (DIIT), Skills, and the Career Development Center (CDC) for making this groundbreaking initiative possible. [Read More](#)

## ❖ Reinauguration of DIET's Modern Automobile Lab

The Automobile Lab at Daffodil Institute of Engineering & Technology (DIET) has been upgraded with modern technology! Students can now gain hands-on experience in vehicle technology, engine systems, hybrid technology, and automotive innovations. The lab provides industry-standard training, giving students a competitive edge in the job market. Today's Reinauguration Ceremony marks a new chapter in DIET's commitment to advanced, practical education. [Read More](#)

## ❖ DIET Signs MoU with Pragati Life Insurance for Student & Parent Safety

Daffodil Institute of Engineering & Technology (DIET) has signed a Memorandum of Understanding (MoU) with Pragati Life Insurance PLC to ensure life insurance benefits for students and their parents. The signing ceremony was attended by Md. Rafiqul Alam Bhuiyan (Rana), Additional Managing Director of Pragati Life Insurance PLC; Dr. Mohammad Nuruzzaman, CEO of Daffodil Group; Rathindra Nath Das, Executive Director of DIET; along with other senior officials. [Read More](#)

## Seminar: Innovations Driving Careers in Mechanical Engineering ❖

Today, DIET hosted a special seminar by the Department of Mechanical Engineering on "Innovations Driving Careers in Mechanical Engineering." Students explored how modern innovations are opening new avenues in mechanical engineering and creating exciting career opportunities. This seminar not only inspires students but also prepares them to become future global engineers. [Read More](#)

## ❖ Seminar: Career Pathways in Automobile Engineering

The Department of Automobile Engineering at DIET hosted a seminar on "Career Pathways in Automobile Engineering." Industry expert Md. Eamin Hossain (Service Advisor, Audi Bangladesh) shared valuable insights on career opportunities, skill development, and future prospects in the automobile sector. [Read More](#)

## ❖ Technical Education Fair 2025

DIET is hosting the Technical Education Fair 2025 featuring career counseling, project exhibitions, and free workshops. Many students have already kickstarted their engineering journeys through the fair. This event could be your turning point for building a successful engineering career! [Read More](#)

## ❖ Certificates of Achievement Awarded at Technical Education Fair 2025

Participants of the Technical Education Fair 2025 were awarded Certificates of Achievement. These certificates are more than just paper—they reflect students' interest, participation, hard work, and learning. We believe this recognition will inspire their future journey and spark even greater enthusiasm for learning new skills. [Read More](#)

## ❖ Seminar on Japan Automobile Career Opportunities

DIET successfully hosted a seminar with Toyota industry experts, including Mr. Kubo, CEO of Toyota Shina Osaka, guiding diploma engineers on career opportunities in Japan's automobile industry. Students gained insights into Japanese work culture, job market trends, and career pathways, along with a Q&A session to clarify their queries. [Read More](#)

## Future Engineers Carnival 2025 ❖

DIET hosted the Future Engineers Carnival 2025 for its 2025-26 session students. The event aimed to help students set clear goals, enhance their skills, and take the first steps toward a successful engineering career. Students participated in the national anthem and pledge for the nation's welfare, inspiring them to become responsible citizens and future skilled engineers. [Read More](#)

## ❖ Art of Living: Inspiring 1st Semester Students

DIET hosted an inspirational event for 1st semester students featuring: Art of Living, Career Guideline Session and Poster Making Competition. The students' enthusiastic participation made the event vibrant and successful! This initiative will play a key role in personality development, career awareness, and creativity enhancement. [Read More](#)

## ❖ Innovation & Skills Competition 2025

The Innovation & Skills Competition 2025 is underway with enthusiastic participation and creativity from students! Through project presentations and the business idea challenge, students are showcasing their innovative thinking and skills. This event is not just a competition—it's opening new doors of opportunity for future diploma engineers. [Read More](#)

## ❖ The Duke of Edinburgh's International Award – Bangladesh

A special session was organized for students to explore how The Duke of Edinburgh's Award can help in personality development, leadership skills, social engagement, and real-life skill acquisition. The program prepares students to tackle real-world challenges alongside academic learning. It is a globally recognized award that shapes young individuals into confident and skilled leaders. [Read More](#)

## ❖ DIET Free Fire Tournament 2025

An exciting Free Fire Tournament 2025 took place today at DIET campus! Top campus squads competed in the event, showcasing amazing teamwork, strategy, and gaming skills in every round. [Read More](#)

## Leadership Session for Diploma Engineers ❖

Leadership is a skill that not only helps individuals tackle challenges but also inspire others and guide them toward goals—a vital quality for diploma engineers in real-world careers. To enhance students' leadership skills, DIET organized a special Leadership Session conducted by Rathindra Nath Das, Executive Director, BTEB Affiliated Institutions, Daffodil Education Network, Daffodil Group. [Read More](#)

## ❖ Daffodil Robotics & AI Center Workshop

Students actively participated in the Daffodil Robotics & AI Center Workshop, exploring Generative AI and Robotics, their industry potential, and real-world applications. The session aimed to enhance skills and prepare students as Smart Solution Creators and Future Tech Leaders. DIET remains committed to hands-on, technology-driven education for its students.

[Read More](#)

## ❖ World Energy Day 2025

World Energy Day 2025 was celebrated at Daffodil Institute of Engineering & Technology, with first-semester students actively participating. They showcased poster presentations highlighting the importance of eco-friendly energy, sustainable fuel solutions, and the future of renewable power. Their creative ideas and presentations inspired a vision for smart and green technology, emphasizing the role of the next generation in building a sustainable future. [Read More](#)

## ❖ DIET Shines at Agent X Competition!

Our talented student showcased exceptional skill, confidence, and creativity at the Agent X Competition, earning a special award! This achievement reflects not just individual brilliance but the pride and inspiration of the entire DIET family. We are confident that bigger victories await in the future! [Read More](#)

## ❖ Football Fiesta 2025

The excitement is on the field! With every run, pass, and goal, the heartbeat of the game matches the pace of the players. This youthful team is creating a new story of thrill and energy on the field. Keep your eyes on the action... magic is happening! [Read More](#)

## ❖ Engineer's Excellence 2025

A day full of excitement, joy, and new dreams! 🎓 With vibrant participation from freshers and a grand celebration, Daffodil Institute of Engineering & Technology proudly hosted 'Engineer's Excellence 2025'. 🌟 The event, organized to welcome new students, was filled with inspirational speeches, music, dance, games, and countless joyful moments. [Read More](#)

## ❖ Power, Solar & Lighting Technology Expo Visit 2025

Students from the Electrical, Mechanical, and Automobile Departments of Daffodil Institute of Engineering & Technology explored the country's largest Power, Solar & Lighting Technology Expo. Experiencing modern technologies, smart industry solutions, and real-time machinery operations enriched their practical knowledge. Direct interaction with industry experts added a new dimension to their future career planning and aspirations. [Read More](#)

## ❖ Youth Entrepreneurship Summit 2025.

Students of Daffodil Institute of Engineering & Technology actively participated in the Youth Entrepreneurship Summit 2025, showcasing their innovative ideas, fresh thinking, and creative projects. Through their presentations, they proved their potential as future entrepreneurs, innovators, and tech leaders. The summit provided an excellent platform for building entrepreneurial mindset, nurturing innovation, and expanding professional networks, empowering tomorrow's changemakers today. [Read More](#)

## ❖ Industry Visit to Karnaphuli Hydropower Station

Daffodil Institute of Engineering & Technology organized an industrial study tour to the Karnaphuli Hydroelectric Power Station in Kaptai, Rangamati, to enhance students' practical knowledge and industry exposure. During the visit, students gained firsthand insights into power generation processes, hydropower management, and dam operations. Such real-world experiences play a vital role in developing technical skills, career awareness, and overall industry readiness among students. [Read More](#)

## ❖ Excellence, Innovation, and Learning: Special Training for Future Innovators

Daffodil Institute of Engineering & Technology organized a special training session, “Excellence, Innovation, and Learning,” to enhance students’ entrepreneurial mindset, creativity, and practical skills. Conducted by Dr. Frans G. Stel from the University of Groningen and PUM Netherlands, the session engaged our students in hands-on activities focused on real-world problem solving, creative thinking, and skill development for future industry demands. This initiative equips students to become innovative entrepreneurs and industry-ready professionals. [Read More](#)

## ❖ Congratulations to Our Campus Leaders!

At the grand celebration of ‘Engineer’s Excellence 2025’, our active Campus Ambassador students were honored with certificates and accolades. Balancing academics with leadership, these students set a remarkable example of dedication, initiative, and skill. Kudos to our inspiring student leaders! [Read More](#)

## ❖ Annual Picnic 2025 Concludes with Fun and Festivities!

With the enthusiastic participation of students, Daffodil Institute of Engineering & Technology celebrated Annual Picnic 2025 in grand style. The day was filled with music, dance, games, and lively conversations, creating unforgettable moments. A perfect break from the routine, this joyful event has recharged everyone with energy and excitement for days to come! [Read More](#)

## ❖ DIET Students Embark on The Duke of Edinburgh's International Award Journey

Taking a significant step in leadership, confidence, and skill development, students of Daffodil Institute of Engineering & Technology participated for the first time in the prestigious The Duke of Edinburgh's International Award program. The journey officially commenced with an Inauguration Program and Orientation Session, featuring enthusiastic student participation in a natural outdoor setting. [Read More](#)

## ❖ Colors of Victory: Celebrating the 54th Victory Day

On the occasion of the 54th Great Victory Day, Daffodil Institute of Engineering & Technology (DIET) organized a special Art Competition with enthusiastic participation from its students. Through colors and creativity, the students expressed the spirit of freedom, patriotism, and pride, paying tribute to the historic significance of Victory Day. [Read More](#)

## ❖ Campus Painted in the Colors of Victory!

On the occasion of the 54th Victory Day, students of Daffodil Institute of Engineering & Technology organized a unique and creative Handprint Art activity. Filled with the love of red and green, the event symbolized patriotism, unity, and the spirit of victory. [Read More](#)

## ❖ Daffodil Institute Celebrates the Spirit of the 54th Victory Day!

On the occasion of Victory Day 2025, Daffodil Institute of Engineering & Technology (DIET) organized a vibrant day-long celebration. With enthusiastic participation and creative expressions, students beautifully reflected their deep sense of patriotism and national pride.

May the spirit of victory continue to inspire our future generations. [Read More](#)
